1. INTRODUCTION

Queensland Touch Football (QTF) has developed this policy to inform our community about the use of Social Media so that people feel enabled in their use of social media as part of their participation experience, while being mindful of their responsibilities and obligations.

The policy outlines protocols and provides guidance for the acceptable use of Social Media.

2. PURPOSE

This Policy sets out the expectations of our Employees, Members and Participants when engaging with Social Media both professionally and personally.

Social Media offers the opportunity for people to gather in online communities of shared interest and create, share, or consume content. This policy is not intended to discourage or limit our community from using a social media platform, however, QTF will ensure that our community operates in an environment that is free from harassment, bullying and discrimination.

Individuals are advised that if you engage in Social Media to ridicule, defame, bully and/or publish comments that may be viewed as detrimental to any individual, group or organisation involved in or associated with QTF or a Touch Football Body, you will be viewed as being in breach of the Code of Conduct and Member Protection Policy. This activity will result in disciplinary action.

In the first instance, complaints should be reported to the Member Protection Information Officer (MPIO) or appropriate delegate of the relevant Touch Football Body to which the alleged complaint relates to, or the alleged respondent (person subject of the complaint) is a member.

It is the preferred procedure for a matter to be dealt with at the local level. Therefore, if a complaint relates to behaviour or an incident that occurred at:

- An affiliate competition or involves people operating at the affiliate, then the complaint should be reported to and handled by the affiliate in the first instance; or after the affiliate level resolution is unable to be found; or
- At regional level or involves people operating at the regional level, then the complaint should be reported to and handled by the regional office, in the first instance or after the regional level resolution is unable to be found; or
- At state level or involves people operating at the state level, then the complaint should be reported to and handled by the relevant state office (QTF) in the first instance or after the local level resolution is unable to be found; or
- At national level or involves only matters that relate to, or which occurred at, the national level and the most serious cases, or unresolved cases at the local and state level should be referred to TFA.

All complaints shall be dealt with promptly, seriously, sensitively, and confidentially following the procedures for handling and resolving complaints as outlined in Attachment [D1] Complaints Procedure of the TFA Member Protection Policy.

After receiving a complaint, and based on the material you provide, the MPIO or the relevant Touch Football Body delegate will implement any interim arrangements that will apply until the complaint process is completed, including ordering the removal of inappropriate material, and decide whether:

- he or she is the most appropriate person to receive and handle the complaint
- the nature and seriousness of the complaint requires a formal resolution procedure
- to refer the complaint to mediation
- to appoint a person to investigate the complaint
- to refer the complaint to a tribunal hearing
- to refer the matter to the police or other appropriate authority, and/or
- to implement any interim arrangements that will apply until the complaint process is completed, including ordering the removal of inappropriate material.

Further information on the handing of alleged complaints and complaints procedure can be directed to your relevant Touch Football Body, Affiliate or Region, or [QTF Member Protection Information Officer \(MPIO\)](#).
